IV. Read the passage, and choose the correct answer A, B, C or D for each question.

The United Nations International Children's Fund (or UNICEF) was founded in 1946 to provide emergency food and healthcare to children in countries that had been devastated by World War II. Headquarters in New York City, it provides long-term humanitarian assistance to children and mothers in developing countries. UNICEF is currently focused on such problems as basic education and gender equality, child protection from violence, exploitation and abuse, and HIV/AIDS. Its child protection programmes also aim at children who are vulnerable to these abuses when living without parental care. These children are at risk of death, poor physical and mental health, HIV infection, educational problems, and poor parenting skills later in life.

Right now, UNICEF is working to help the **disabled** children in provinces in Central Viet Nam. Its first priorities are to find out where children with disabilities live and what their needs are. It will also work to meet disabled children's immediate needs: help build more centers for disabled children, give them access to medical care and make sure they receive aids like wheelchairs. Half of all children with disabilities are illiterate and most of them do not finish primary school. For the long term, UNICEF is already working with the Vietnamese government to fully integrate those with disabilities into society and to improve the rights of all disabled children.

Question 21: What is one of the main tasks of UNICEF?

- **A.** It helps the old to have a comfortable life in the society.
- **B.** It has programs to help poor and disabled children to have better life and overcome their educational problems.
 - **C.** It teaches illiterate people in developing countries to read and write.
 - **D.** It creates opportunities for children to enjoy good educational system abroad.
