- D. restoring and restoring balance between human progress

Read the following passage about The Impact of Technology on Education and mark the letter A, B, C or D on your answer sheet to indicate the best answer to each of the following questions from 23 to 30.

In recent years, technology has profoundly transformed the landscape of education. Online learning platforms, educational apps, and virtual classrooms have made it possible for students to access quality education from anywhere in the world. This shift has been particularly beneficial during times of crisis, such as the COVID-19 pandemic, when traditional classroom settings were disrupted.

Technology not only enhances the learning experience but also allows for personalized education. With adaptive learning systems, students can learn at **their** own pace and focus on areas where they need improvement. Additionally, digital resources provide access to a wealth of information that can enrich the curriculum and foster critical thinking skills.

However, the reliance on technology also presents challenges. Issues such as digital divide, screen fatigue, and the potential for decreased social interaction must be addressed to ensure that all students benefit from technological advancements. Educators and policymakers must work together to create a balanced approach that leverages technology while promoting healthy learning environments.

In conclusion, while technology has the potential to revolutionize education, it is crucial to recognize and mitigate its challenges. By doing so, we can create a more inclusive and effective educational system for all students.

Question 23: Which of the following is NOT mentioned as a benefit of technology in education?

- A. Access to quality education
- B. Enhanced learning experiences
- C. Access to a wealth of information
- D. Increased social interaction

Question 24: The word “profoundly” in paragraph 1 is OPPOSITE in meaning to _____.

- A. Significantly
- B. Intensely
- C. Deeply
- D. Superficially

Question 25: The word “**their**” in paragraph 2 refers to _____.

- A. students
- B. learning systems
- C. educational apps
- D. virtual classrooms

Question 26: The word “fatigue” in paragraph 3 could be best replaced by _____.

- A. Energy
- B. Exhaustion
- C. Distraction
- D. Interest

Question 27: Which of the following best paraphrases the underlined sentence in paragraph 3?

- A. Educators and leaders need to individually design methods to improve technology in schools and encourage well-being among students.
- B. It is important for educators to ignore technology and focus on creating safe learning environments for students.
- C. Teachers and decision-makers should collaborate to develop a strategy that uses technology effectively and supports positive learning spaces.
- D. Policymakers and educators must compete to find ways to enhance learning through technology while ensuring students' health.

Question 28: Which of the following is TRUE according to the passage?

- A. Technology has only negative effects on education during times of crisis.
- B. Traditional classroom settings have become completely obsolete due to online learning platforms.
- C. Students are unable to access quality education from anywhere due to technological limitations.
- D. Personalized education is made possible through adaptive learning systems.

Question 29: In which paragraph does the writer mention the benefit of technology in education?

- A. Paragraph 1 B. Paragraph 2 C. Paragraph 3 D. Paragraph 4

Question 30: In which paragraph does the writer mention what educators and policymakers do to maximize the benefits of technology in education?

- Paragraph 4 B. Paragraph 2 C. Paragraph 1 D. Paragraph 3

Read the following passage about A Journey Through the Seasons and mark the letter A, B, C, or D on your answer sheet to indicate the best answer to each of the following questions from 31 to 40.

Nature is a powerful force that shapes our world in countless ways, with the changing seasons offering unique beauty and challenges. From the blooming flowers of spring to the bare-bones landscapes of winter, these cycles show the **ebb and flow** of life, reflecting resilience and renewal.

[I]Spring marks new beginnings as the snow melts and temperatures rise. [II]Flora and fauna awaken, with trees regaining their vibrant green hues and flowers blooming. [III], engaging in gardening and reconnecting with the earth, which promotes mental well-being.[IV]

In summer, longer, warmer days bring vitality and energy. People flock to outdoor spaces to celebrate life, while summer offers opportunities for travel and adventure. **However, heatwaves and droughts challenge ecosystems, reminding us of nature's delicate balance.**

Autumn brings transition as leaves turn vibrant colors. This harvest season encourages reflection and gratitude, often symbolized by festivals like Thanksgiving. **It** reminds us of life's cyclical nature as we prepare for winter.

Winter presents a serene landscape, though harsh with cold and limited daylight. Despite its challenges, it fosters **introspection**, rest, and creativity. Families bond during holidays, finding warmth in traditions.

In conclusion, the seasons impact both the environment and our well-being. Each season teaches us to embrace change and appreciate nature's beauty.

Question 31: The phrase "**ebb and flow**" in paragraph 1 could be best replaced by_____.

- A. Build up and break down
B. Rise and fall
C. Push and pull
D. Turn up and turn down

Question 32: Where in paragraph 2 does the following sentence best fit?

People often feel rejuvenated during spring

- A. [I] B. [II] C. [III] D. [IV]

Question 33: According to the passage, which of the following is NOT a meaning of spring?

- A. A time for rejuvenation and new beginnings
B. A season for planting and gardening
C. A season when trees and flowers bloom
D. A time for introspection and rest

Question 34: Which of the following best summarises paragraph 3?

- A. Autumn is a season of transition, reflection, and preparation for winter.
B. Autumn is a time for outdoor adventures and travel.
C. Autumn marks the beginning of new growth and rejuvenation.
D. Autumn is associated with harsh weather conditions and challenges for ecosystems.

Question 35: The word "**it**" in paragraph 4 refers to_____.

- A. The harvest season B. Autumn C. Reflection and gratitude D. Thanksgiving

Question 36: Which of the following best paraphrases the underlined sentence in paragraph 3?

- A. Heatwaves and droughts pose threats to ecosystems, showing us the fragile harmony of nature.
B. Heatwaves and droughts have little impact on ecosystems, and they teach us to value the power of nature.
C. Heatwaves and droughts help ecosystems thrive, reminding us of the need for environmental preservation.
D. Heatwaves and droughts create opportunities for adventure, teaching us to embrace nature's power.

Question 37: The word “introspection” in paragraph 5 is OPPOSITE in meaning to _____.

- A. Reflection B. Extraversion C. Creativity D. Isolation

Question 38: Which of the following is TRUE according to the passage?

- A. Spring is associated with rest and creativity.
B. Heatwaves and droughts are beneficial for ecosystems.
C. Winter is a time for outdoor adventures and travel.
D. Autumn symbolizes reflection and preparation for winter.

Question 39: Which of the following can be inferred from the passage?

- A. The seasons are unchanging and predictable.
B. Winter is the most important season for outdoor activities.
C. Each season plays an important role in both the environment and our well-being.
D. Nature’s challenges are always negative and harmful.

Question 40: Which of the following best summarises the passage?

- A. The seasons have distinct effects on nature and human well-being, with each season offering its own unique challenges and benefits.
B. Winter is the most challenging season, requiring introspection and rest to cope with its harsh conditions.
C. Spring is the season that people most enjoy because it represents new beginnings and rejuvenation.
D. The changing seasons have little impact on human life compared to their effects on the environment.
